

Project Development Phase

Sprint 3

Team ID	PNT2022TMID22388
Project Name	Inventory Management System for Retailers

Adding products to inventory:

The screenshot shows a web browser window with the URL `127.0.0.1:5000/purchase_order`. The application is titled 'Inventory' and has a sidebar menu with 'Purchase Items' selected. The main content area is titled 'Items In Inventory' and contains a form with the following fields: Product Name, Supplier Name, Purchase Price, Selling Price, Quantity, and Low Stock Limit. A 'Submit' button is located at the bottom left of the form. The footer of the application indicates 'AdminKit - Bootstrap Admin Template ©' and provides links for 'Support', 'Help Center', 'Privacy', and 'Terms'.

Selling stocks from inventory:

The screenshot shows a web browser window with the URL `127.0.0.1:5000/sales`. The application is titled 'Inventory' and has a sidebar menu with 'New Sales' selected. The main content area is titled 'Sales Items from Inventory' and contains a form with the following fields: Customer Name, Customer Email, Phone number, Product Id, and Quantity. A 'Submit' button is located at the bottom left of the form. The footer of the application indicates 'AdminKit - Bootstrap Admin Template ©' and provides links for 'Support', 'Help Center', 'Privacy', and 'Terms'.
